

Diagnostic imaging and radiotherapy market in Poland 2020

Market analysis and development forecasts for 2020-2025

TABLE OF CONTENTS

Methodology

Abstract - Image diagnostics market

Characteristics of the imaging diagnostics market in Poland

Most important events and trends on the imaging diagnostics market in Poland between 2018 and 2020. Amount of imaging diagnostic equipment

Number of benefits provided

Oncology package

Average waiting time for research

Number of radiologists

Expected events and trends between 2020 and 2025

Factors, including obstacles, relating to development - PMR survey results

Market value and forecasts for 2020-2025

Market structure

Category of imaging tests

Sources of funding

Number of patients

Characteristics of individual subgroups

X-ray diagnostics

Subgroup characteristics and trends

Development factors and barriers

Forecast growth rate of the subgroup

Mammography

Subgroup characteristics and trends

Development factors and barriers

Forecast growth rate of the subgroup

Telemedicine - teleradiology

Subgroup characteristics and trends

Development factors and barriers

Forecast growth rate of the subgroup

Ultrasonography

Subgroup characteristics and trends

Development factors and barriers

Forecast growth rate of the subgroup

Magnetic resonance

Subgroup characteristics and trends

Development factors and barriers

Forecast growth rate of the subgroup

Computed tomography

Subgroup characteristics and trends

Development factors and barriers

Forecast growth rate of the subgroup

Positron emission tomography

Subgroup characteristics and trends

Development factors and barriers

Forecast growth rate of the subgroup

Scintigraphy

Subgroup characteristics and trends

Development factors and barriers

Forecast growth rate of the subgroup

Other subgroups which will grow more rapidly than the overall market

Results of a study carried out at imaging diagnostic centres in Poland

Introduction

Financial situation in 2020

Financial situation in 2021

Purchase plans for imaging diagnostic equipment

Knowledge of brands of imaging diagnostic equipment

State policy with regard to the imaging industry

Principles of funding individual imaging diagnostics services

Magnetic resonance

Computed tomography

Radiological research

Ultrasonographic examination

PET research

Other nuclear medicine tests

Prices of imaging diagnostics services

Magnetic resonance

Computed tomography

Nuclear Medicine

Spending on the funding of individual imaging diagnostics services

Magnetic resonance

Computed tomography

Ultrasound and radiographic examination

PET research

Other nuclear medicine tests

Providers of imaging diagnostic tests

Number of imaging diagnostic laboratories

By category of service provided

By form of ownership

By voivodeship

Number of laboratories in general hospitals

Largest NFZ Contractors

Diagnostic centres offering imaging diagnostic tests

Epidemiological trends

Average life expectancy

The most common causes of hospitalisation

Most common causes of death

Basic statistics

Poland in comparison with other European countries

Epidemiology of selected diseases in Polish society

Cardiovascular diseases

Cancer

Respiratory diseases

Digestive and metabolic diseases

Nervous system diseases

Diseases of the osteoarticular system

Oral diseases

Summary - Radiotherapy market

Characteristics of the radiotherapy market in Poland

Most important events and trends on the radiotherapy services market in Poland between 2018 and 2020

Expected events and trends between 2020 and 2025

Factors, including obstacles, relating to development - PMR survey results

Market value and forecasts for 2020-2025

Public and private sector participation

Characteristics of individual subgroups

Teleradiotherapy

Brachytherapy

State policy with regard to the radiotherapy industry

Funding rules for individual radiotherapy services

Teleradiotherapy

Brachytherapy

Prices of radiotherapy services

Spending on funding of individual radiotherapy services

Teleradiotherapy

Brachytherapy

Radiotherapy providers

Number of radiotherapy laboratories and departments

By category of service provided

By form of ownership

By voivodeship

List of providers of benefits

Radiotherapy (stationary mode)

In possession of a teleradiotherapy laboratory/facility

In possession of a brachytherapy workshop/facility

Largest Contractors

Public entities

Non-public/private entities
