

# HVAC MARKET IN POLAND

# 2024

Market analysis and development  
forecasts for 2024-2029

August 2024

# TABLE OF CONTENTS

<b>Executive summary</b> .....	10
<b>Size of the HVAC market in Poland</b> .....	32
Size of the HVAC market in Poland.....	32
Value and share of HVAC segments in Poland.....	35
<b>Overview of the current situation in the HVAC market in Poland</b> .....	39
Companies operating in the HVAC market in Poland.....	39
Number of companies operating in the HVAC market in Poland.....	39
Major players and their market shares in the Polish HVAC market.....	40
Main market trends and key factors influencing the HVAC market in Poland.....	41
2023 as a strongly declining year, 2024 as a year of calming of the market situation.....	41
Rising sea freight costs and their impact on price pressure.....	41
Availability of installation teams no longer an issue limiting the growth of the industry.....	43
Decline in project enquiries in design offices.....	43
Strong performance of the zloty weakens inflationary pressure.....	44
Low unemployment in Poland and the inflationary environment in the Polish economy are adversely affecting the price pressure on equipment manufacturers.....	44
Inflationary environment with continuing trend of seeking savings at the final stage of construction.....	45
HVAC equipment price growth – market inflation.....	46
No visible improvement in single-family construction, slight rebound in property development.....	47
Deterioration in the commercial part of the building construction market.....	48
Good stock availability, with warehouses still full of heat pumps – impact on weaker inflationary pressure.....	48
Trend of energy efficiency of installed equipment – increasing importance of energy savings in HVAC systems.....	49
Growing importance of modern HVAC installations in the sustainable construction era.....	49

Key success factor in the installation market – availability of technical advice and professional installation.....	49
Programmes supporting the Polish HVAC market.....	50
Stabilisation in commodity markets and rising energy prices.....	64
Implementation of new mechanisms and formalities affecting the HVAC market.....	66
Uncertainty factor related to energy prices in the long-term perspective.....	68
Individual preferences of HVAC installers.....	69
Structure of installed HVAC equipment.....	70
<b>Forecast for the HVAC market in Poland for 2024-2029.....</b>	<b>72</b>
Forecast for the HVAC market value in 2024-2029.....	72
Factors to influence the HVAC market in Poland.....	75
Development forecast for residential construction in 2024-2029.....	76
Development forecasts for non-residential construction in 2024-2029.....	82
General macroeconomic outlook.....	86
Growth rate of prices in the construction market and prices in general.....	88
Electricity prices in Poland.....	89
Investment growth rate in Poland.....	90
EU funds – Multiannual Financial Framework and the National Recovery Plan.....	91
Programmes supporting the HVAC market.....	92
Interest rates and demand for mortgage loans.....	92
Labour market situation in the Polish construction sector.....	94
Polish population’s financial situation.....	95
Demographic situation in Poland.....	95
Impact of the war in Ukraine on the construction market and the HVAC market in Poland.....	96
Forecast for the Polish heating equipment market for 2024-2029.....	97
Forecast for the Polish ventilation equipment market for 2024-2029.....	99
Forecast for the Polish air-conditioning equipment market for 2024-2029.....	101
Scenarios for the development of the HVAC market in Poland in 2024-2029.....	103
Real GDP growth.....	104
War in Ukraine.....	104
Inflation in Poland.....	104
Electricity prices in Poland.....	106
Interest rates in Poland.....	107
National Recovery Plan.....	107
Geopolitical situation.....	108
Labour market situation.....	108
Poles' purchasing power.....	109

<b>Analysis of the heating equipment market in Poland</b> .....	110
Market size – volume of key equipment.....	110
Volume of the market for heating boilers.....	110
Market shares of the heating boilers market leaders.....	113
Volume of the heat pumps market.....	114
Market shares of the heat pumps market leaders.....	118
Value of the heating equipment market.....	120
Trends in the heating equipment market.....	121
Central heating boilers.....	121
Heat pumps.....	122
Installation companies operating in the heating segment and characteristics of typical orders.....	133
Average number of orders in installation companies – heating installations.....	133
Value of a typical order in 2023 – heating installations.....	136
Change in value of typical order in 2023 – heating installations.....	137
Heating installations based on heat pumps – structure and change of the value of a typical order.....	139
Sources of supply with HVAC systems – heating equipment.....	139
<b>Analysis of the ventilation equipment market in Poland</b> .....	141
Market size – volume of key equipment.....	141
Value of the ventilation equipment market.....	143
Trends in the ventilation market in Poland.....	144
Recuperators.....	145
Air handling units.....	145
Mechanical ventilation without heat recovery as an alternative solution.....	146
Continuing upward trend in share of investment in existing buildings.....	148
Influence of COVID-19 on the growth of the air purifier segment, high interest in this type of equipment persists.....	148
Searching for savings on installation of ventilation equipment.....	148
Growing popularity of complex heating, ventilation and air-conditioning solutions.....	149
Expected increase in share of ventilation unit replacements.....	149
Installation companies operating in the ventilation segment and characteristics of typical orders.....	149
Average number of orders in installation companies – ventilation installations.....	149
Value of a typical order in 2023 – ventilation installations.....	153
Change in the value of a typical order in 2023 – ventilation installations.....	154
Sources of supply with HVAC systems – ventilation equipment.....	155
Structure of individual types of ventilation equipment.....	156

<b>Analysis of the air-conditioning equipment market in Poland</b> .....	157
Market size – volume of key equipment.....	157
Value of the air-conditioning equipment market.....	159
Trends in the air-conditioning market in Poland.....	160
Air-conditioning as the most stable segment of the HVAC market .....	160
Warm summer and hot weather favouring growth in the residential air-conditioning segment of the market.....	163
Trend to save on installed equipment.....	163
Prevalence of equipment installed in existing dwellings.....	163
Market for the smallest, split air conditioners as a market for low-cost units – quality and brand more important in the case of replacements.....	164
Growing share of secondary replacements in the commercial buildings segment.....	164
Stable behaviour of the largest-scale installations segment.....	165
Installation companies operating in the air-conditioning segment and characteristics of typical orders.....	165
Average number of orders in installation companies – air-conditioning installations .....	165
Value of a typical order in 2023 – air-conditioning installations .....	168
Change in the value of a typical order in 2023 – air-conditioning installations .....	169
Sources of supply with HVAC systems – air-conditioning equipment.....	171
Structure of individual types of air-conditioning equipment.....	172

## LIST OF GRAPHS

1. Value (PLN bn) and change (% YoY, in nominal terms) of the HVAC market in Poland, 2018-2023 ...	35
2. Value (PLN bn) and change (% YoY, in nominal terms) of the heating equipment market in Poland, 2018-2023 .....	36
3. Value (PLN bn) and change (% YoY, in nominal terms) of the air handling units market in Poland, 2018-2023 .....	37
4. Value (PLN bn) and change (% YoY, in nominal terms) of the air-conditioning equipment market in Poland, 2018-2023 .....	37
5. Share of the individual segments in the entire HVAC market in Poland (% , by value), 2018-2023.....	38
6. Trade routes from Shanghai to Europe (\$/40-foot), 2024 .....	43
7. EUR/PLN and USD/PLN exchange rates, January 2019-July 2024 .....	44
8. Structure of heat sources applied for under the Clean Air programme (%), January 2022-May 2024 .....	59
9. Average prices of hot rolled sheet in the Polish market (PLN/tonne net), January 2021-June 2024 .....	64
10. Average prices of HEB beams in the Polish market (PLN/tonne net), January 2021-June 2024.....	64
11. Average prices of ribbed bars in the Polish market (PLN/tonne net), January 2021-June 2024 .....	65
12. Average copper quotations on the London Stock Exchange (3-month average \$/tonne), January 2019-July 2024.....	65
13. Average aluminium quotations on the London Stock Exchange (3-month average \$/tonne), January 2019-July 2024.....	65
14. Average quarterly selling price of electricity in the competitive market in Poland (PLN/MWh), Q1 2019-Q2 2024.....	66
15. PMR forecast: Average electricity prices* for non-household consumers in Poland (PLN/MWh), 2019-2029 .....	68
16. PMR forecast: Change in the average electricity prices* for non-household consumers in Poland (% YoY), 2019-2029.....	69

17. PMR forecast: Change in the average electricity prices* for non-household consumers in Poland (% YoY), 2019-2029.....	69
18. Structure of installed HVAC equipment in Poland (% , by volume), by building type, 2020-2023 .....	71
19. Structure of HVAC installations in Poland (% , by volume), by new installations and renovations, 2023.....	71
20. Estimate of available housing loan and the Cumulative Index of Bank Housing Credit Policy (ZKPK; V. axis), Q3 2006-Q1 2024.....	80
21. M3 Housing Availability Index* (IDM 3M), 2005-2024.....	81
22. PMR forecast: GDP per capita (PLN thousand) and real GDP change in Poland (% YoY), 2020-2029.....	87
23. PMR forecast: CPI and price index for construction and assembly output (% YoY), baseline scenario, 2020-2029 .....	88
24. PMR forecast: PPI for the HVAC market in Poland (% YoY), 2023-2029.....	88
25. PMR forecast: Average electricity prices* for non-household consumers in Poland (PLN/MWh), 2020-2029.....	89
26. PMR forecast: Change in the average electricity prices* for non-household consumers in Poland (% YoY), 2020-2029.....	90
27. PMR forecast: Capital expenditure growth rate in real terms in Poland (% YoY), 2020-2029.....	90
28. PMR forecast: Value of expenditure financed by the EU funds* in Poland (PLN bn) and its share in GDP (%), 2020-2029.....	91
29. PMR forecast: Gross fixed capital formation related to reduction of pollution in Poland (PLN bn) and its change (% YoY), 2020-2029.....	92
30. PMR forecast: Polish WIBOR 3M average annual interest rate (%), 2020-2029.....	93
31. PMR forecast: Change in the number of mortgage loans granted and nominal change in mortgage loan value in Poland (% YoY), 2020-2029.....	93
32. PMR forecast: Average annual LFS unemployment rate (%) and real change in average monthly gross wage in Poland (% YoY), 2020-2029.....	94
33. PMR forecast: Real growth of household disposable income and private consumption in Poland (% YoY), 2020-2029.....	95

35. PMR forecast: CPI in Poland (% YoY), baseline, pessimistic and optimistic scenarios, 2022-2029.....	105
36. PMR forecast: Price index for construction and assembly output in Poland (% YoY), baseline, pessimistic and optimistic scenarios, 2022-2029.....	105
37. PMR forecast: Price index for the HVAC market in Poland (% YoY), baseline, pessimistic and optimistic scenarios, 2022-2029.....	106
38. PMR forecast: Change in electricity prices* for non-household consumers in Poland (% YoY), baseline, pessimistic and optimistic scenarios, 2022-2029.....	106
39. PMR forecast: Polish WIBOR 3M average annual interest rate (%), baseline, pessimistic and optimistic scenarios, 2022-2029.....	107

40. PMR forecast: Value of expenditure financed by the EU funds* in Poland (PLN bn), baseline, pessimistic and optimistic scenarios, 2022-2029 .....	107
41. PMR forecast: Average annual LFS unemployment rate in Poland (%), baseline, pessimistic and optimistic scenarios, 2022-2029 .....	108
42. PMR forecast: Real growth rate of average monthly gross wage in Poland (% YoY), baseline, pessimistic and optimistic scenarios, 2022-2029 .....	109
43. PMR forecast: Real growth rate of disposable income in Poland (% YoY), baseline, pessimistic and optimistic scenarios, 2022-2029 .....	109
44. Shares of individual types of heat pumps in Poland (% of installed equipment), 2019, 2021, 2022 and 2023.....	115
45. Shares of major heat sources in the total number of applications for heat source replacement in the Clean Air programme (%), January-December 2023.....	116
46. Volume (thousand units) and change (% YoY) of the market for main types of heat pumps in Poland, 2015-2024 .....	117
47. Value (PLN bn) and change (% YoY, in nominal terms) of the heating equipment market in Poland, 2018-2023 .....	120
48. Average gas quotations on the NYMEX (\$/MMBTU), January 2019-July 2024.....	126
49. Structure of heat sources applied for under the Clean Air programme (%), January 2022-May 2024.....	127
50. Average number of heating installation assembly and repair orders completed in 2023.....	133
51. Average number of orders for assembly and repair of heating installations completed in 2023, by type of construction in which the works were carried out .....	134
52. Average number of orders for assembly and repair of heating installations completed in 2023, by type of construction in which the works were carried out and the number of employees .....	134
53. Average number of heating installation assembly and repair orders in residential buildings completed in 2023.....	135
54. Average number of heating installation assembly and repair orders in non-residential buildings completed in 2023, by type of building.....	135
55. Average number of heating installation assembly and repair orders completed in 2023, by type of the employer.....	136
56. Average net value of the entire heating installation assembled in Poland (%) in 2023 .....	136
57. Value structure (%) of a typical order for heating installation in Poland in 2023 .....	137
58. Percentage of companies that recorded an increase, decrease or no change in the value of a typical order for heating installation assembly (%) in 2023.....	138
59. Estimated increase in the value of a typical order for heating installation assembly completed in 2023 (% YoY), by type of building in which the works were carried out.....	138
60. Structure of installed heat pumps (% of the number of the installed equipment) in 2023 .....	139
61. Place of supply of the surveyed companies with heating equipment (%) in 2023, by the number of purchased equipment .....	140
62. Value (PLN bn) and change (% YoY, in nominal terms) of the air handling units market in Poland, 2018-2023 .....	143
63. Average number of ventilation installation assembly and repair orders completed in 2023.....	150

64. Average number of orders for assembly and repair of ventilation systems completed in 2023, by type of construction in which the works were carried out .....	150
65. Average number of orders for assembly and repair of ventilation systems completed in 2023, by type of construction in which the works were carried out and the number of employees .....	151
66. Average number of ventilation system assembly and repair orders in residential buildings completed in 2023.....	151
67. Average number of ventilation system assembly and repair orders in non-residential buildings completed in 2023, by type of building.....	152
68. Average number of ventilation system assembly and repair orders completed in 2023, by type of the employer.....	152
69. Average net value of the entire ventilation system assembled in Poland (%) in 2023.....	153
70. Value structure (%) of a typical order for ventilation system installation or repair in Poland in 2023.....	153
71. Percentage of companies that recorded an increase, decrease or no change in the value of a typical order for ventilation system assembly (%) in 2023.....	154
72. Estimated increase in the value of a typical order for ventilation system installation completed in 2023 (% YoY), by type of building in which the works were carried out.....	154
73. Place of supply of the surveyed companies with ventilation equipment (%) in 2023, by the number of purchased equipment.....	155
74. Structure of individual types of ventilation in Poland (% , quantitatively), 2023.....	156
75. Structure of the surveyed companies installing ventilation systems (%), by type of ventilation, 2023.....	156
76. Value (PLN bn) and change (% YoY, in nominal terms) of the air-conditioning equipment market in Poland, 2018-2023 .....	160
77. Average number of air-conditioning system assembly and repair orders completed in 2023.....	165
78. Average number of orders for assembly and repair of air-conditioning systems completed in 2023, by type of construction in which the works were carried out.....	166
79. Average number of air-conditioning system assembly and repair orders in residential buildings completed in 2023.....	166
80. Average number of air-conditioning system assembly and repair orders in residential buildings completed in 2023, by the number of employees.....	167
81. Average number of air-conditioning equipment assembly and repair orders in non-residential buildings completed in 2023, by type of building.....	167
82. Average number of air-conditioning equipment assembly and repair orders completed in 2023, by type of the employer.....	168
83. Average net value of the entire air-conditioning system assembled in Poland (%) in 2023 .....	168
84. Value structure (%) of a typical order for installation of the air-conditioning system in Poland in 2023 .....	169
85. Percentage of companies that recorded an increase, decrease or no change in the value of a typical order for air-conditioning system assembly (%) in 2023.....	169
86. Estimated increase in the value of a typical order for the air-conditioning system completed in 2023 (% YoY), by type of building in which the works were carried out.....	170

87. Place of supply of the surveyed companies with air-conditioning equipment (%) in 2023, by the number of purchased equipment .....	171
88. Structure of air-conditioning equipment installed in Poland (% , quantitatively), 2023 .....	172
89. Total revenues of Robert Bosch Sp. z o.o. (PLN m), 2018-2023 .....	174

## PMR – a leading market research firm in Central and Eastern Europe.

PMR provides **industry analyses, market research** and **economic forecasting services** for the region of Central and Eastern Europe.

The company was founded by a group of investors from the USA and Poland who were later joined by shareholders from the UK and the RSA.

Currently, PMR is a provider of analyses, research and forecasts for **global players** interested in Central and Eastern European markets, with a portfolio of over 2,000 conducted projects.

We specialise in research and analyses:

- of the retail, IT, telecommunications, construction, pharmaceutical and medical markets
- covering Central and Eastern Europe (CEE), in particular Poland, Russia, the Czech Republic, Slovakia, Hungary, Ukraine and Romania.

We also have extensive experience of conducting projects on other industries (e.g. agri-food, FMCG, consumer electronics, household appliances, cosmetics, manufacturing, e-commerce, HoReCa) and countries (we have carried out projects in more than 30 countries).

The quality of our services and products is ensured by the team of around 80 staff, including:

- analysts of the ICT, construction, medical and retail markets
- a team of macroeconomics, forecasting and econometric modelling experts
- quantitative researchers
- qualitative researchers
- data visualisation and data analysis experts
- specialists in quantitative and qualitative fieldwork.

## PMR offers:

- **Periodic reports** on the Retail, Construction, Pharma & Healthcare and ICT markets in Central and Eastern Europe. The reports include information on market size, shares of major players, trends and events in the sector under review. Detailed forecasts, accompanied by insightful commentary, form a key part of the reports. The forecasts are prepared by a team of econometric modelling experts and industry analysts.
- **Customised market sizing and forecasting** services, conducted on clients' request.
- **Quantitative and qualitative market research** services carried out with the use of CATI, CAWI, FGI, IDI, expert interviews and other methodologies.
- International quantitative and qualitative **fieldwork services** in the CEE region for market research agencies.

PMR's clients are mainly multinational companies operating in the CEE region, state institutions, consulting companies and international market research agencies. We boast a portfolio of **over 2,000 completed market research projects**.

We operate an in-house CATI studio and collaborate with a network of subcontractors throughout the CEE region.

PMR has its head office in Krakow, Poland. In 2022 we have launched another location in Poznan, Poland.
