Consumer survey

The study presents the results of a survey on diet catering services in the Czech Republic among consumers:

- consumer habits and preferences,
- price sensitivity,
- key factors motivating purchase,
- brand awareness.

Forecasts

Long-term market development forecasts were prepared for the report using econometric models and several-year time series.

The forecasts cover the period 2025-2030.

In addition to the forecasts for the value of the market, the report also covers forecasts for selected macroeconomic indicators, including:

- GDP per capita and real GDP growth rate,
- CPI inflation and price index for food services,
- average annual LFS unemployment rate and real change in average monthly gross wage in the Czech Republic,
- real change of household disposable income in the Czech Republic and private consumption,
- number of residents in the Czech Republic and share of each demographic group.

The accuracy of the forecasts published in PMR Market Experts' reports is high – the typical error rate (MAPE) is lower than 3-5%.

What questions does the report provide answers to?

- What is the value of the diet catering market in the Czech Republic?
- What are the projections for its development over the next five years?
- How do Czechs use diet catering services?
- What are the prevailing trends in the diet catering market?
- What is the real growth rate of the diet catering market in the Czech Republic?
- How does the diet catering market in the Czech Republic compare to the Polish market?

DATASET – together with the report, we provide the most important data in an Excel spreadsheet for individual aggregation.
