

CLOUD COMPUTING MARKET IN POLAND

2025

Market analysis and development
forecasts for 2025-2030

TABLE OF CONTENTS

Executive summary	7
Cloud computing market in Poland	17
Value and change of the cloud computing market in Poland	17
Market structure	19
Private and public cloud	19
SaaS, IaaS, PaaS	20
Microenterprises, SMEs, large enterprises and public institutions	25
Economic sectors	42
Distribution channels	44
SWOT analysis	46
Key legal and regulatory developments in the area of cloud computing	50
Cloud computing penetration and areas of use	57
Public cloud service price level (IaaS)	64
Market growth forecasts for 2025-2030	66
Trends, forecasts, and international comparisons	66
Growth forecasts for the cloud computing market in Poland	88
Factors influencing the cloud computing market in Poland	91
Key conclusions and recommendations related to the presented forecasts	98
Competitive environment	112
Profiles of top players – IaaS and PaaS	118
Amazon Web Services (AWS)	118
OChK	122
Microsoft	126

Google Cloud Platform (GCP).....	130
Oracle	132
3S Data Center (Play Group).....	137
Beyond.pl	140
Oktawave.....	147
OVHcloud	150
Exea	155
IBM.....	159
Atman.....	162
CloudFerro.....	166
HPE	168
Netia.....	170
T-Mobile Polska.....	172
Profiles of top players – SaaS.....	173
Text.....	173
Comarch.....	176
IAI	182
Vercom.....	186
Transition Technologies.....	188
SAP	191
COIG S.A.	194
Medicalgorithmics.....	198
Cloud Technologies	201
Sagra Technology.....	203
Unit4 Polska.....	206
Profiles of top players – integrators.....	209
Asseco Cloud.....	209
Capgemini Polska.....	213
Sii.....	216
Inetum Polska.....	218
Craftware.....	221
C&F	224
Senetic	227
PwC IT Services	230
NTT DATA Business Solutions.....	232
POLCOM.....	234
Grape up	237
All for One Poland	239
Infomex	242
Bluesoft.....	245

Integrated Solutions (Orange Polska).....	248
Betacom.....	253
Globema	256
Redge Technologies	260
Methodology	263
List of graphs	274
List of tables	281
About PMR	284

LIST OF GRAPHS

1. Value and change of the cloud computing market in Poland, 2015-2024.....	17
2. Value and change of the public and private cloud computing markets in Poland, 2015-2024.....	19
3. Value structure of the cloud computing market in Poland, broken down into public and private cloud, 2015-2024.....	19
4. Public cloud computing market in Poland, broken down by the different service provision models, 2024.....	20
5. Value and change of the SaaS cloud market in Poland, 2015-2024.....	21
6. Share of SaaS in the software market value in Poland (%), 2015-2024.....	21
7. Value of the SaaS cloud computing market in Poland, broken down into basic and advanced solutions, 2016-2024.....	22
8. Value structure of the SaaS cloud computing market in Poland, broken down into basic and advanced solutions, 2016-2024.....	22
9. Value and change of the IaaS cloud market in Poland, 2015-2024.....	23
10. Value and change of the PaaS cloud market in Poland, 2015-2024.....	24
11. Structure of the cloud computing market in Poland, by groups of end customers, 2024.....	25
12. Value and change of the cloud computing market in the segment of large enterprises in Poland, 2015-2024.....	26
13. Value and change of the cloud computing market in the segment of large enterprises in Poland, broken down into public and private cloud, 2015-2024.....	26
14. Share of large enterprises in Poland that use cloud computing, 2015-2024.....	27
15. Popularity of the different types of cloud computing among large enterprises using cloud computing solutions in Poland (%), 2024.....	27
16. Models of cloud solutions used by large enterprises in Poland (%), 2015-2024.....	28
17. Location of storage and processing of corporate resources by large companies in Poland (%), 2024.....	28

18. Key barriers preventing large enterprises in Poland from achieving their cloud computing goals (%), 2024	30
19. Share of enterprises in Poland reporting that they exceeded their planned cloud budget in 2024 (%), 2024	32
20. Mode of purchasing cloud computing solutions among large enterprises in Poland (%), 2024	32
21. Factors that large enterprises in Poland consider when choosing a cloud computing provider (%), 2025	33
22. Mode of implementation of AI solutions by large companies in Poland (%), 2024	34
23. Value and change of the cloud computing market in the segment of SMEs and microenterprises in Poland, 2015-2024	34
24. Value and change of the cloud computing market in the segment of SMEs and microenterprises in Poland, broken down into public and private cloud, 2015-2024	35
25. Structure of the cloud computing market in the segment of SMEs and microenterprises in Poland, 2015-2024	35
26. Share of SMEs in Poland using cloud computing, 2015-2024	36
27. Key barriers preventing SMEs in Poland from achieving their cloud computing goals (%), 2024	37
28. Approach of SMEs in Poland to the use of multi-cloud architecture (%), 2024	37
29. Mode of purchasing cloud computing solutions among SMEs in Poland (%), 2024	38
30. Factors that SMEs in Poland consider when choosing a cloud computing provider (%), 2024	39
31. Share of SMEs in Poland reporting that they exceeded their planned cloud budget in 2024 (%), 2024	39
32. Mode of implementation of AI solutions by SMEs in Poland (%), 2024	40
33. Value and change of the cloud computing market in the segment of public administration and local government in Poland, 2015-2024	41
34. Value and change of the cloud computing market in the segment of public administration and local government in Poland, broken down into public and private cloud, 2015-2024	41
35. Value of the public cloud computing market in Poland (PLN m), by distribution channel, 2016-2024	45
36. Value structure of the public cloud computing market in Poland (%), by distribution channel, 2016-2023	46
37. Enterprises in Poland using cloud computing services (%), by size, 2015-2021 and 2023-2024	58
38. Forecast achievement of the cloud deployment target in Poland, 2025-2030	58
39. Risks linked to the use of cloud services by enterprises in Poland (%), 2024	61
40. Reasons for investing in cloud solutions in the SME sector in Poland (%), 2024	62
41. Public administration entities using paid cloud computing services in Poland (%), by service type, 2022-2023	63
42. Shares of the different cloud models in the cloud computing market globally (%), 2018-2025	68
43. Global spending on cloud infrastructure services and its change, Q3 2021-Q3 2024	69
44. Leading providers' shares in the global cloud infrastructure services market (%), Q2 2024	69
45. Magic Quadrant for the global providers of strategic cloud platform services, 2024	70
46. Popularity of the biggest global public cloud providers (%), 2018-2024	71

47. Share of enterprises globally that have accelerated the migration of their resources to the cloud (%), 2022-2024	73
48. Share of workloads running in the public cloud compared to public cloud spending by enterprises globally (%), 2022-2024	73
49. Share of enterprises globally planning to move their workloads from the public cloud back to the private cloud or local infrastructure (%), H1 2018-H1 2024.....	74
50. Share of enterprises globally expecting year-over-year growth in their cloud spending (%), H2 2020-H1 2024.....	74
51. Global enterprises' approach to the location of IT infrastructure (%), 2023-2024.....	75
52. Use of multi-cloud architecture by enterprises globally (%), 2022-2024	76
53. Annual spending on the public cloud (\$), 2022-2024.....	77
54. Share of cloud computing in total IT spending by enterprises globally (%), 2023-2024.....	78
55. Share of enterprises globally that plan to increase their cloud spending compared to the same period a year earlier (%), 2023-2024	78
56. Allocation of public cloud spending among enterprises globally (%), H2 2021-H1 2024.....	79
57. Challenges of cloud computing spending (%), 2024	79
58. Drivers of unnecessary cloud spending in enterprises globally (%), 2024.....	80
59. Share of enterprises globally believing that the use of cloud computing has positively impacted their profitability (%), 2023-2024.....	81
60. Degree to which cloud services have saved costs for enterprises globally (%), 2024	81
61. Expected AI-related growth in cloud infrastructure investment over the next two years (%), 2024.....	82
62. Expected AI-related growth in cloud infrastructure investment over the next two years, by region (%), 2024.....	82
63. Share of enterprises globally agreeing that cloud computing has helped them achieve their business goals (%), 2024.....	83
64. Key barriers to the use of cloud in the operations of enterprises globally (%), 2024.....	83
65. Biggest cloud computing risks according to enterprises globally (%), 2024	84
66. Top challenges in securing multi-cloud environments according to enterprises worldwide (%), 2024.....	84
67. Share of enterprises worldwide that believe they are more or less secure thanks to migrating their resources to the cloud (%), 2023-2024.....	85
68. Factors preventing enterprises globally from implementing GenAI in their cloud infrastructure strategy (%), 2024.....	86
69. Cloud computing models in enterprises in Europe (%), 2023.....	86
70. PMR forecast: GDP per capita and real GDP change in Poland, 2021-2030	92
71. PMR forecast: CPI inflation in Poland (% YoY), 2021-2030.....	93
72. PMR forecast: Capital expenditure growth rate in real terms in Poland (% YoY), 2021-2030.....	94
73. PMR forecast: Total number of companies in Poland and its change, 2021-2030	95
74. PMR forecast: Average annual LFS unemployment rate and real change of average monthly gross wage in Poland, 2021-2030.....	96
75. PMR forecast: Real growth of household disposable income and private consumption in Poland (% YoY), 2021-2030.....	97

76. PMR forecast: Value and change of the cloud computing market in Poland, 2024-2030	98
77. PMR forecast: Value and change of the public and private cloud computing markets in Poland, 2024-2030	99
78. PMR forecast: Value structure of the cloud computing market in Poland, broken down into public and private cloud, 2024-2030	99
79. PMR forecast: Enterprises in Poland using cloud computing services (%), by size, 2024-2030	100
80. PMR forecast: Value of the public cloud computing market in Poland, broken down into SaaS, IaaS and PaaS, 2024-2030	106
81. PMR forecast: Shares of SaaS, IaaS and PaaS in the public cloud computing market in Poland, 2024-2030	107
82. Value of the SaaS cloud computing market in Poland, broken down into basic and advanced solutions, 2024-2030	107
83. Value structure of the SaaS cloud computing market in Poland, broken down into basic and advanced solutions, 2024-2030	107
84. PMR forecast: Value of the cloud computing market in Poland, broken down into microenterprises, SMEs, large enterprises and the public sector, 2024-2030	108
85. PMR forecast: Value of the public cloud computing market in Poland, broken down into microenterprises, SMEs, large enterprises and the public sector, 2024-2030	108
86. PMR forecast: Value of the private cloud computing market in Poland, broken down into SMEs, large enterprises and the public sector, 2024-2030	109
87. PMR forecast: Value of the public cloud computing market in Poland, by distribution channel, 2024-2030	110
88. PMR forecast: Value structure of the public cloud computing market in Poland, by distribution channel, 2024-2030	111
89. Amazon Web Services EMEA Sarl: Value and change of cloud computing services revenue, 2016-2024	119
90. Value and change of OChK's revenue from sales of IT products and services in Poland, 2019-2024	124
91. Value and change of OChK's cloud computing revenue in Poland, 2019-2024	124
92. Microsoft: Value and change of revenue in Poland, 2014-2024	126
93. Microsoft: Value and change of revenues generated from sales of cloud computing services in Poland, 2016-2024	127
94. Google Cloud Poland: Value and change of revenues generated from sales of cloud computing services in Poland, 2015-2024	130
95. Oracle: Value and change of revenue in Poland, 2014-2024	133
96. Oracle: Value and change of revenues generated from sales of cloud computing services in Poland, 2014-2024	133
97. 3S Data Center: Value and change of revenue in Poland, 2014-2024	137
98. 3S Data Center: Value and share of revenues generated from sales of cloud computing services in Poland, 2017-2024	138
99. Beyond.pl: Revenue generated from sales of IT and cloud computing solutions in Poland, 2014-2024	143

100. Oktawave: Value and change of revenue, 2014-2024	148
101. OVHcloud: Value and change of revenue from sales of IT products and services in Poland, 2014-2024	151
102. OVHcloud: Value and change of revenues generated from sales of cloud computing services in Poland, 2015-2024	151
103. Exea: Value and change of revenue in Poland, 2016-2024	156
104. Exea: Value and share of revenues generated from sales of cloud computing services in its total revenue in Poland, 2016-2024	156
105. IBM: Value and change of revenue in Poland, 2014-2024	159
106. IBM: Value and change of revenues generated from sales of cloud computing services in Poland, 2015-2024	160
107. Atman: Value and change of revenue in Poland, 2017-2024	162
108. Atman: Value and change of revenues generated from sales of cloud computing services in Poland, 2020-2024	163
109. CloudFerro: Value and change of revenue in Poland, 2015-2024	166
110. HPE: Value and change of revenue in Poland, 2015-2024	168
111. Text: Value and change of consolidated revenue generated from sales of IT solutions, 2014-2024	173
112. Comarch: Value and change of revenue, 2014-2024	177
113. Comarch: Value and share of revenue from sales of cloud computing services in total revenue, 2014-2024	178
114. Comarch: Shares of SaaS, PaaS and IaaS in cloud computing services revenue (%), 2016-2023	178
115. IAI: Value and change of revenues generated from sales of IT solutions, 2014-2024	183
116. Vercom: Value and change of revenue in Poland, 2019-2024	186
117. Transition Technologies: Value and change of revenues generated from sales of IT solutions, 2014-2024	188
118. Transition Technologies: Value and share of revenue from cloud computing sales in its total IT revenue, 2014-2024	189
119. SAP: Value and change of revenues generated from sales of cloud computing services in Poland, 2016-2024	191
120. COIG: Value and change of consolidated revenue generated from sales of IT solutions in Poland, 2014-2024	195
121. COIG: Value and share of revenues from cloud computing sales in its total IT revenue in Poland, 2014-2024	195
122. Medicalgorithmics: Value and change of revenues generated from sales of cloud computing services in Poland, 2018-2024	198
123. Cloud Technologies: Value and change of consolidated revenue in Poland, 2014-2024	201
124. Cloud Technologies: Value and share of standalone revenues generated from sales of cloud computing services in its total IT revenue in Poland, 2014-2024	202
125. Sagra Technology: Value and change of revenues generated from sales of IT solutions in Poland, 2014-2024	203

126. Sagra Technology: Value and share of revenues generated from sales of cloud computing services in its total IT revenue in Poland, 2014-2024.....	203
127. Unit4 Polska: Value and change of revenue, 2016-2024	206
128. Unit4 Polska: Value and share of revenues generated from sales of cloud computing services, 2016-2024	207
129. Asseco Group: Value and change of revenue in Poland, 2020-2024	210
130. Asseco Group: Value and change of cloud computing services revenue in Poland, 2020-2024.....	210
131. Asseco Cloud: Value and change of revenue in Poland, 2021-2024	211
132. Capgemini: Value and change of revenue in Poland, 2014-2024.....	213
133. Capgemini: Value and change of revenues generated from sales of cloud computing services in Poland, 2015-2024	214
134. Sii: Value and change of revenue in Poland, 2014-2024.....	216
135. Sii: Value of revenues generated from sales of cloud computing services in Poland (PLN m), 2018-2024	217
136. Inetum Polska: Value and change of revenue in Poland, 2016-2024.....	218
137. Inetum Polska: Value and share of revenues generated from sales of cloud computing services in Poland, 2016-2024	219
138. Craftware: Value and change of revenue, 2016-2024	221
139. Craftware: Value and share of revenues generated from sales of cloud computing services, 2016-2024	222
140. C&F: Value and change of revenue in Poland, 2019-2024	224
141. C&F: Value and share of revenues generated from sales of cloud computing services in Poland, 2019-2024	225
142. Senetic: Value and change of revenue, 2016-2024.....	227
143. Senetic: Value and share of revenues generated from sales of cloud computing services, 2016-2024	228
144. PwC IT Services: Value and change of revenues generated from sales of IT solutions in Poland, 2014-2024	230
145. PwC IT Services: Value and share of revenues generated from sales of cloud computing services in its total IT revenue in Poland, 2014-2024.....	230
146. NTT DATA Business Solutions: Value and change of revenues generated from sales of IT solutions in Poland, 2014-2024.....	232
147. NTT DATA: Value and share of revenues generated from sales of cloud computing services in its total IT revenue in Poland, 2014-2024	233
148. Polcom: Value and change of revenue in Poland, 2014-2024.....	235
149. Polcom: Value of revenues generated from sales of cloud computing services in Poland (PLN m), 2016-2024.....	235
150. Grape up: Value and change of revenue, 2016-2024	237
151. All for One Poland: Value and change of revenue in Poland, 2016-2024.....	239
152. All for One Poland: Value and change of revenues generated from sales of cloud computing services in Poland, 2016-2024	240

153. Infomex: Value and change of revenues generated from sales of IT solutions in Poland, 2014-2024	242
154. Infomex: Value and share of revenues generated from sales of cloud computing services in its total IT revenue in Poland, 2014-2024	243
155. Bluesoft: Value and change of revenue in Poland, 2016-2024	246
156. Bluesoft: Value and share of revenues generated from sales of cloud computing services in Poland, 2018-2024	246
157. Integrated Solutions: Value and change of revenues generated from IT services in Poland, 2014-2024	249
158. Integrated Solutions: Value and change of revenues generated from cloud computing services in Poland, 2014-2024	249
159. Betacom: Value and change of revenues generated from sales of IT solutions in Poland, 2014-2024	253
160. Betacom: Value and share of revenues generated from sales of cloud computing services in its total IT revenue in Poland, 2014-2024	254
161. Globema: Value and change of revenue in Poland, 2016-2024	257
162. Globema: Value and share of revenues generated from sales of cloud computing services in Poland, 2016-2024	257
163. Redge Technologies: Value and change of revenue in Poland, 2014-2024	260
164. Redge Technologies: Value and change of revenues generated from sales of cloud computing services in Poland, 2014-2024	261
165. Use and reach of different cloud models in Poland, 2025	264
166. Revenue structure of providers from individual product groups on the IT market in Poland, 2025	268

LIST OF TABLES

1. Share of enterprises in Poland that decreased or increased their spending on cloud computing in a given year compared to the preceding year (%), 2023-2025	18
2. Seven key reasons why large enterprises in Poland do not use cloud computing services or use them only to a limited extent (%), 2016-2024	29
3. Areas where large enterprises in Poland have achieved benefits through their cloud investments (%), 2024	31
4. Share of large enterprises in Poland that decreased or increased their spending on cloud computing in a given year compared to the preceding year (%), 2024-2025	33
5. Areas where SMEs in Poland have achieved benefits through their cloud investments (%), 2024	38
6. Share of SMEs in Poland that decreased or increased their spending on cloud computing in a given year compared to the preceding year (%), 2024-2025	40
7. Value of the cloud computing market in Poland, by economic sector, 2018-2024	43
8. Cloud computing market structure in Poland, by economic sector, 2018-2024	43
9. Cloud penetration in Poland, by economic sector, 2018-2024	44
10. SWOT analysis of the cloud computing market in Poland, 2025	47
11. SWOT analysis of the public cloud market in Poland, 2025	48
12. SWOT analysis of the private cloud market in Poland, 2025	48
13. Advantages of applying cloud computing solutions for B2B customers in Poland, 2025	49
14. Comparison of the key advantages and drawbacks of using cloud solutions – the example of purchasing licences and services in the SaaS model, 2025	49
15. ICT systems allowed in the cloud under the WIIP, 2024	51
16. Timetable for the installation of remote reading meters in Poland, 2025	57
17. Enterprises in Poland using paid services in the cloud (%), by service type, 2017-2021 and 2023	59
18. Popularity of different services among enterprises using cloud computing in Poland (%), 2017-2021 and 2023	59

19. Co-occurrence of different cloud services in enterprises using cloud computing in Poland (%), 2023	60
20. Public administration entities using cloud computing services in Poland (%), by entity type, 2019-2023	62
21. Number of providers reporting the provision of cloud computing, hosting, managed, data centre and related services in Poland, by headcount, Q2 2017-Q2 2024	63
22. AWS: Basic prices of public cloud services in selected regions in Europe, January 2025	64
23. AWS: Basic prices of public cloud services in selected regions in Europe, January 2024	64
24. Google Cloud: Basic prices of public cloud services in selected regions in Europe, January 2025	65
25. Google Cloud: Basic prices of public cloud services in selected regions in Europe, January 2024	65
26. Microsoft Azure: Basic prices of public cloud services in selected regions in Europe, January 2025	65
27. Microsoft Azure: Basic prices of public cloud services in selected regions in Europe, January 2024	65
28. Value of the global public cloud computing market (\$ bn), broken down into IaaS, PaaS, SaaS, BPaaS, DaaS and cloud management and security services, 2018-2025	67
29. Growth rate of the global public cloud computing market (% YoY), broken down into IaaS, PaaS, SaaS, BPaaS, cloud management and security services, 2018-2025	67
30. Global public cloud market structure, by top providers' revenue (\$ m, % YoY), 2020-2023	68
31. Shares of enterprises running workloads in the cloud, testing and planning to use public cloud services (%), by the largest providers, 2024	72
32. Shares of enterprises worldwide currently using, testing and planning to deploy different private cloud technologies (%), 2024	72
33. Cloud deployment models applied by enterprises worldwide (%), 2022-2024	75
34. Public cloud services used by large enterprises globally (%), 2018-2024	76
35. Use of cloud computing services by enterprises in selected Central European countries (%), 2014-2021 and 2023	87
36. Use of cloud computing services by small, medium-sized and large enterprises in selected Central European countries (%), 2023	87
37. Utilisation of selected cloud solutions by enterprises reporting the use of cloud computing in selected Central European countries (%), 2023	88
38. Key trends and assessment of the situation in the cloud computing market in Poland, 2015-2030	89
39. Factors influencing the value of the cloud computing market in Poland, 2024-2030	91
40. PMR forecast: Growth rate of the public cloud computing market in Poland, broken down into SaaS, IaaS and PaaS, 2024-2030	106
41. PMR forecast: Value and change of the cloud computing market, by economic sector, 2024-2030	109
42. PMR forecast: Structure of the cloud computing market in Poland, by economic sector, 2024-2030	110

43. Top 40 providers of cloud computing services in Poland, by revenue (PLN thousand), 2015-2023	114
44. Shares of IaaS, PaaS and SaaS solutions in the revenue structure of the selected cloud computing providers in Poland (%), 2023.....	116
45. Top IT providers generating revenue by selling virtualisation and container solutions in Poland, 2015-2023	117

48. PMR forecast: Impact of macroeconomic and demographic factors on the cloud computing market in Poland, 2021-2030.....	272

PMR – a leading market research firm in Central and Eastern Europe.

PMR provides **industry analyses, market research** and **economic forecasting services** for the region of Central and Eastern Europe.

The company was founded by a group of investors from the USA and Poland who were later joined by shareholders from the UK and the RSA.

Currently, PMR is a provider of analyses, research and forecasts for **global players** interested in Central and Eastern European markets, with a portfolio of over 2,000 conducted projects.

We specialise in research and analyses:

- of the retail, IT, telecommunications, construction, pharmaceutical and medical markets
- covering Central and Eastern Europe (CEE), in particular Poland, Russia, the Czech Republic, Slovakia, Hungary, Ukraine and Romania.

We also have extensive experience of conducting projects on other industries (e.g. agri-food, FMCG, consumer electronics, household appliances, cosmetics, manufacturing, e-commerce, HoReCa) and countries (we have carried out projects in more than 30 countries).

The quality of our services and products is ensured by the team of around 80 staff, including:

- analysts of the ICT, construction, medical and retail markets
- a team of macroeconomics, forecasting and econometric modelling experts
- quantitative researchers
- qualitative researchers
- data visualisation and data analysis experts
- specialists in quantitative and qualitative fieldwork.

PMR offers:

- **Periodic reports** on the Retail, Construction, Pharma & Healthcare and ICT markets in Central and Eastern Europe. The reports include information on market size, shares of major players, trends and events in the sector under review. Detailed forecasts, accompanied by insightful commentary, form a key part of the reports. The forecasts are prepared by a team of econometric modelling experts and industry analysts.
- **Customised market sizing and forecasting** services, conducted on clients' request.
- **Quantitative and qualitative market research** services carried out with the use of CATI, CAWI, FGI, IDI, expert interviews and other methodologies.
- International quantitative and qualitative **fieldwork services** in the CEE region for market research agencies.

PMR's clients are mainly multinational companies operating in the CEE region, state institutions, consulting companies and international market research agencies. We boast a portfolio of **over 2,000 completed market research projects**.

We operate an in-house CATI studio and collaborate with a network of subcontractors throughout the CEE region.

PMR has its head office in Krakow, Poland. In 2022 we have launched another location in Poznan, Poland.
